DETAILED ACTION

Acknowledgement

1. Acknowledgement is hereby made of the amendment filed 02/28/2006

Allowable Subject Matter

2. Claim(s) 1-15 is/are allowed.
3. The following is an examiner's statement of reasons for allowance:

Prior Art does not suggest or expressly reveal a method comprising a step in which the component feeders' identifications in a series of feeder slots are imaged simultaneously; wherein the image is then analyzed for determining the actual feeders identifications carried by the actually installed feeders in a series of feeder slots of a component placement machine. CCD cameras have been known in prior art that the time the invention was made such as one used in Hwang et al. (US 6,634,091 B1); however, such cameras have not been employed in taking an image of all feeders in a series at the same time.
